

MICROSOFT ONLINE LICENSES BY POWEROBJECTS

If you're looking for guidance on Dynamics 365, Office 365, Azure or other Microsoft online licenses, or are having difficulty navigating the many licensing options available to find the best fit for your organization, look no further. As a trusted Microsoft partner, PowerObjects has been named as a Cloud Solution Provider (CSP), which means that they can not only guide you down the right licensing path but can also sell you those licenses.

Benefits

1. Credit to use any or all PowerObjects **PowerPack add-ons** for Dynamics 365 for Customer Engagement
2. 10% discount on **Dynamics 365 University** education offerings (bootcamps, trainings, etc.)
3. Steep discount on PowerObjects' **PowerSuccess** (service-as-a-subscription) offering
4. Break/fix support from PowerObjects included in the license cost
5. Monthly licensing model – add/remove licenses as needed (yearly is also available, if preferred)
6. Full control to self-manage licenses through PowerObjects' customer care portal, **PowerCare**

Process

1. Receive a custom-generated quote from a licensing expert
2. Sign PowerObjects' licensing agreement
3. Name PowerObjects as your Cloud Solution Provider in Office 365 environment (or work with your licensing expert to set up a new environment if you don't have an existing one)
4. PowerObjects adds your initial set of licenses.
5. Purchase additional licenses as needed through PowerObjects' customer service portal, **PowerCare**

What are Microsoft online licenses?

Examples of Microsoft online licenses include, but are not limited to:

- Dynamics 365 (Customer Engagement or Unified Operations)
- Office 365 (ProPlus/Business Essentials/Premium, Enterprise E3/E5, Microsoft 365)
- Microsoft Azure (usage-based subscription)
- PowerApps
- Power BI
- Microsoft Flow
- Microsoft Project Online (Essentials/Premium/Professional)
- Exchange Online/SharePoint Online/Visio Online/OneDrive for Business/Intune
